Subject 1: Strengthen your Application security with Entersoft

As a growing organization, your application security cannot be limited to onetime vulnerability assessment or traditional penetration testing. Instead, it requires a multi-level approach to make sure that the application, supporting backend infrastructure, and data flows are all secure.

We at **Entersoft** take penetration testing to the next level by incorporating a combination of offensive assessments, pragmatic managed security, and proactive monitoring methods. With a '**Hackers Mindset**' we identify threats to enhance your organization's first line of defense and give you Military-grade protection against malicious attacks.

With a team of elite **OSCP** certified and **CREST** Registered hackers we provide your organisation with tailored solutions in assessing security risks, threat monitoring, managing compliance, and safeguarding your organization against evolving attacks.

Do you see value in having a call next week to explore ways we could help you with your Cyber Security requirements?

Look forward to hearing from you.

I hope you and your family are safe during this unpredictable pandemic.

Dear Pratik,

I wanted to check if you had the opportunity to go through my previous email which speaks about the significance of having a multi-level approach to make sure that the application, supporting backend infrastructure, and data flows are all secure against malicious attacks.

We at **Entersoft** have a team of elite **OSCP** certified and **CREST** Registered hackers which are experts in assisting organisations with tailored solutions in assessing security risks, threat monitoring, managing compliance, and safeguarding against evolving attacks.

Please do let me know if you would like to explore our offerings. Reply with a suitable time slot and I'll fix it up.

Hope to hear from you soon.

Subject 2: We've got your back

Hi ,

I hope you and your loved ones are safe during this tough period.

In continuation of my previous emails, I hope you got a chance to go through it.

We at **Entersoft Security** partner with business leaders to safeguard their applications with an integrated, proactive, and forward-thinking approach to embrace security as an investment, and not as an expense.

We have worked with many firms such as **Fidelity Investments, CISION, IOOF, Fairfax Media**. I would be glad to share more insight into our services.

Could you let me know your available time to explore the ways we could help you with your Cyber Security requirements?

Email 4

Hi Pratik,

I trust you are safe and healthy.

I have sent you a couple of emails in the past and I was wondering if you would be interested to know more about how we can help you with your Cyber Security requirements.

Please reply to this mail with your availability and I'll be happy to take you through it.

Stay connected

Application Security from experts

Hi ,

If you're reading this message, that's a piece of good news to know you are doing well and can support your business during the pandemic. I hope your family is also feeling hearty.

It's time for many businesses to get back to their normal state, and significant nourishment is needed to make it happen. Experts believe the shift in focus to get the business running will expose many organizations to security threats.

We at **Entersoft** are striving to support your organization from cyber attacks so that you do your business with confidence and reduced risk.

Entersoft's Application Security Expertise

= **8+ Years** of Experience + **6000+** Vulnerabilities Fixed + **3000** Applications tested

I'd love to learn more about your business and see if Entersoft would be a good fit. Do you have 15 minutes this week or the next to talk?
